

TESTIMONIALS

Biotechnology for Non-Biotechnologists -

Wednesday & Thursday, 3-4 November 2010 – FULL CLASS
Biopolis, Singapore

Attendees from:

DSM Nutritional Products Asia Pacific Pte Ltd
Exploit Technologies/A*STAR
Phillip Private Equity Pte Ltd
Agency for Science Technology & Research
BioVeda Capital Singapore Pte Ltd
Experimental Therapeutics Centre
The Straits Times
Roche Singapore Technical Operations Pte Ltd
Lonza

ALSA Trainer:

Dr. Vanya Loroch is a US-trained molecular biologist with over fifteen years of experience in applying emerging technologies to scientific communications and education. After spending ten years developing web-based medical education programs in collaboration with a major ambulatory clinic in Geneva (Groupe Médical d'Onex), the Geneva University Hospital and the University of Montreal, he launched intensive training programmes in compact biology and biotech to help busy professionals bridge the gap between a state of partial or non-existent understanding of key concepts in modern biology and true literacy in life sciences. In the last three years, over 600 participants from more than 130 companies and organizations in Switzerland, including major pharmaceutical and biotech companies such as Lonza, Novartis, Syngenta, Roche and Merck Serono, have attended his training programs. Dr Loroch's courses are supported and endorsed by the Swiss Biotech Association.

Testimonials

Provided a good coverage of material necessary for understanding biotechnology. Exceeded my expectations and glad for the painless introduction to a complex science.

Edward Teoh, Finance Director, Lonza Biologics Tuas Pte Ltd

Instructor delivered more depth than I expected. Exceeded my expectations.

Philip Lim, CEO, Exploit Technologies

For a beginner, the course really intrigues me. It makes me want to learn more about biotech. There should be a next step after this basic introduction. Met my expectations.

Dessy Arfianni, Commercial Manager, DSM Nutritional Products Asia Pacific Pte Ltd

Asia Life Sciences Academy Pte Ltd

www.createbusiness.ch/training.htm

This course was supplemented with very comprehensive notes that are easy to understand. Trainer was very clear in his delivery and helped clarify complex science concepts into easy to understand logic. Exceeded my expectations.

Cynthia Liang, JTC Corporation

Great introduction to difficult material. Could be over 3 days, with homework & tests to actively reinforce learning. Exceeded my expectations.

Grace Goh, Associate, ETPL, ASTAR

Overall very well presented. Exceeded my expectations.

Chang Ai-Lien, Senior Correspondent , Enterprise Desk, Singapore Press Holdings

Fantastic primer on biotech. Met my expectations.

Foong Chong Lek, Independant Consultant

Good illustration and explanation of difficult concepts. Exceeded my expectations.

Marcus Tan Kee Woon, Senior Manager, Exploit Technologies/A*STAR

This course met my expectations on what is biomedical and I have a better understanding on the terms used.

Tan Chee Cheng, Roche

About ALSA:

Asia Life Sciences Academy (ALSA) is dedicated to serving the needs of biomedical sciences executives and organizations in Singapore and in the region. We offer structured education opportunities in global pharma business development and licensing. We provide business and scientific training using a case study approach delivered by industry experts and practitioners to ensure that the learning is practical, up-to-date and can be applied by our participants immediately in their workplace. Our aim is to advance the skills and deepen the understanding of the science and business realities of the entire value chain in drug discovery, development, registration, partnering, licensing and commercialisation.
